Register in the Virtual Academy

When you register for the FBI’s Virtual Academy (VA), you must be affiliated with a law enforcement/criminal justice organization that also has to be registered in the VA; this means that registration in the VA has two paths. The first path registers a new organization and designates you as the new organization’s training manager—the person appointed to serve as the organization’s primary point of contact with regard to training issues involving the VA. The second path registers you in an existing organization. Once you (and your new organization if you created one) have been approved, you will have access to online training as well as the ability to request access to training events within the Virtual Academy and apply to the National Academy program.
